

Approved Inverters – MainPower

Below is a list of Approved Inverters on MainPower's network. For your inverter to be considered compliant with MainPower's requirements it must be certified to the latest version of AS/NZS 4777.2. This is currently AS/NZS 4777.2.2015. We aim to update this list every six months.

If your inverter is not on this list or is approved to an older version of AS/NZS 4777, please include specifications and a certificate of compliance to AS/NZS 4777.2.2015 with your application.
